Experience

CipherCru Innovations Pvt. Ltd.

Sept 2025 – Present

Java Developer

Jaipur, India

- Engineered **Permission Module** with role-based access control serving **500+ users**, implemented **pagination**, Indexing for optimized data retrieval.
- Designed and developed **15+ RESTful APIs** using **Spring Boot** following **SOLID principles**, leveraging **Java 8+ Stream API** for efficient data processing, resolving **40+ critical bugs**.
- Optimized **PostgreSQL** database performance by implementing **10+ triggers, functions, and views**, reducing query execution time by **40%** and improving overall system efficiency through strategic indexing.
- Containerized Spring Boot application using **Docker**, implemented **Flyway** for automated migrations (reducing deployment time by **60%**), and integrated **Swagger** and **SonarQube** maintaining **90%+ code quality score**.

Modulobytes Softwares Pvt. Ltd.

Dec 2024 – June 2025

Software Engineer Trainee

Jaipur, India

- Implemented **Spring Security** with role-based access control, securing 100% of endpoints; automated DB versioning using **Flyway**, reducing schema errors by **40%**, and documented APIs using **Swagger**.
- Enhanced API performance through **pagination, database indexing**, and global **exception handling** via **@ControllerAdvice**, resulting in **30% faster** response time and **40% reduction** in debugging efforts.
- Built and maintained scalable, production-grade **RESTful APIs** using **Spring Boot** and **MySQL**; ensured clean code practices, modular design, and CI/CD readiness for better maintainability.
- Improved **unit test coverage to 90%+** with 80+ tests using **JUnit & Mockito**, accelerating delivery by **20%** through Git-based team collaboration in an Agile environment.

GRRAS Solution Pvt. Ltd

May 2024 – June 2024

Java Backend Intern

Jaipur, Rajasthan

- Developed and integrated **RESTful APIs** using **Java** and **Spring Boot**, and optimized **MySQL** queries and **CRUD operations**, reducing response latency by **20%**.
- Applied core **OOP principles** and Java best practices to write **modular, maintainable code**; used **Git/GitHub** for version control and collaboration, streamlining feature delivery by **20%** in an Agile setup.
- Supported backend development in an Agile setup, ensuring clean integration and maintainability across services.

Skills

Programming Languages: Java | C | JavaScript

Backend Development: Spring Boot | **Spring Security** | Hibernate | **REST APIs** | JWT

Database & Versioning: MySQL | Flyway | PostgreSQL | DB Indexing

Frontend: HTML | CSS | JavaScript

Testing & DevOps: JUnit5 | Mockito | SonarQube | **Git** | GitHub | Postman

Tools & Cloud: IntelliJ IDEA | VS Code | AWS S3 | Docker | Swagger | Maven

Other Technical Skills: | Unit Testing| Solid Principles | Agile Methodology | **Collections Framework**

Projects

Bhojan Pani | Java, Spring Boot, MySQL, JWT, Razorpay, AWS S3, Flyway, Unit testing, Spring Security

🐙 [GitHub](#)

- Engineered a scalable food ordering platform with **role-based access**, JWT authentication, and secure **Spring Security APIs**.
- Integrated **Razorpay** for payments, **AWS S3** for image uploads, and **Flyway** for DB versioning.
- Optimized performance via **pagination, DB indexing**, and tested with **JUnit5 & Mockito**.

Education

Poornima University

Sept. 2021 - April 2025

Bachelor of Technology in Computer Engineering(CE)

CGPA:7.72

Certifications

- Java Programming by **Great Learning** - Core Java, OOP concepts, and Collections Framework.
- Problem Solving through Programming in C by **NPTEL** - Data structures, algorithms, and computational techniques.
